Business Summary:

AP Valletta is an award-winning architectural and design firm located in Valletta, Malta, which provides architectural, engineering, interior design and valuation services. Founded in 1991, AP Valletta consists of a multinational and multi-disciplinary team of architects and other professionals. Over the years it has completed a range of projects and achieved considerable success in local and international design competitions. In the last fifteen years AP Valletta has been especially successful in the development of masterplans, a number of which were located within historical environments, often carried out in collaboration with other partners and specialists. AP Valletta has a diverse portfolio which includes urban landscapes, office buildings, residential buildings, retail and hospitality, industrial infrastructure and cultural buildings.

Expertise:

AP is a Warranted Partnership of Periti (Architects and Civil Engineers) in accordance with chapter 390 of the Laws of Malta, with Partnership No P/2. AP Valletta is an ISO 9001:2015 Certified Company by Dimitto Sa Certification Services, certificate number 85-MT. The team is headed by a Board of Directors composed of its founding partners, Konrad Buhagiar and David Felice, along with non-executive Chairman Chris Mifsud. In 2025, the team welcomes seven new leaders into its partnership: Charles Sciberras, Danica Cachia Mifsud, Erica Giusta, Jacques Borg Barthet, Rory Apap Brown, Rosanne Asciak and Simone Vella Lenicker. The practice is run by a Board of Management is made up of three areas: Practice, Innovation and Management. Projects are led by the partners and their respective teams having expertise in managing large-scale design projects or a portfolio of multiple projects of varying scale and complexity. AP Valletta fosters an integrated design and process approach to projects assuring a responsive, effective and client-oriented service.

Facilities and technical assets:

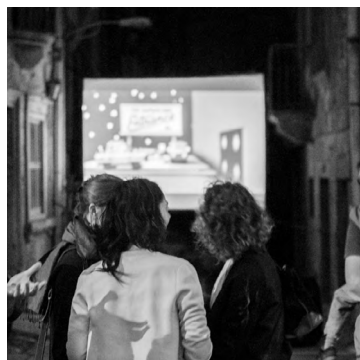

The studio of AP Valletta are situated on St. Michael's Bastion, part of the landward enceinte of the sixteenth-century fortified city of Valletta and overlooking the entrance to Marsamxett Harbour. The original eighteenth-century fabric of the building was considerably tampered with during the nineteenth century, and, during the Crimean War, when Malta served as headquarters for the Allies, was part of an unrealised project for a military hospital on the bastion incorporated this building to serve as the entrance wing. The building is the only one to retain its original aspect, most of the surrounding area having been redeveloped in the nineteenth century in the eclectic style of the period. A tunnel underlying the building along its length, connects Sappers Street to the fortified ditch that surrounds the city.

The AP Valletta Cluster:

The six-storey complex of buildings was regenerated as a creative cluster with AP operating from 650 sqm of space accommodating 50 persons, along with other like-minded creative enterprises.

The cluster includes Franck Franjou Lighting Design and fablabvalletta, a subsidiary enterprise which provides digital fabrication services, 3D printing, laser cutting, and prototyping to support experimental research.

Technical assets include: Autodesk AEC Collection; Autodesk Revit LT; Adobe Creative Suite Design Premium 5; Sketchup; Rhino3D; Maxwell Studio; Deltek Vision; NBS Specification Writer; Microsoft Project; Microsoft Office 365; Microsoft Windows 10; Delta Wasp 3D printer; EPILOG laser cutter-Fusion 120 Watt (PLA filaments); VIVE HTC Virtual Reality Headset, Epson SC-T5200 Wide Format Plotter.
